

14 May 2023 Adding DISS FAMILY TREE to the Bruce RAYNR website

This work has taken much longer than expected due to computer problems over the years, They were completed long ago together with the SPURGEON Family Trees, which I hope will follow soon. Perhaps we can put the delay down to increasing age, we all know 'old age' takes no prisoners. Plus the fact that I cannot recall ever meeting any of the Halstead Diss family members while I was living in Halstead! Apparently more than one of this family went to Australia.

This particular list of family trees gave problems because of the number of like names, children perhaps named after their cousins. Or maybe it was just my eyes.

For obvious reasons I have therefore only created the HALSTEAD families of DISS, the line which my Aunt Minnie married into in 1912. You can check how wide ranging they are across ESSEX, from which I created my B, D, M lists and created families in Brothers Keeper. It would be a big task to create the families from the B, D, M's. But any corrections additions or information on improving the family trees will always be welcomed.

Otherwise, enjoy what is here.
